

REDUCE FLUORIDE IN YOUR WATER

Due to high demand and the introduction of fluoride into many more water supplies, we are pleased to offer you our range of fluoride reducing filter systems.

Mains Water Fluoride Overdose Incident

"Residents have been alarmed by a fluoride overdosing incident..."

"It is now believed a small amount of the highly fluorinated water was supplied to a YMCA campsite where about 200 school children may have been exposed, four houses at the treatment plant, and possibly around 400 homes in one suburb. The maximum dose estimated to reach taps was 19.4mg/L (usual dose is 1mg/L) ..."

FL051 | 80% Fluoride Removal

Fluoride Reduction Cartridge

Upgrade your existing filter system, using this cartridge as your prefilter.

Very Fine
0.5 micron

\$111.08
RRP Incl. GST

Three great options to reduce Fluoride in your water

TS500 | 80% Fluoride Removal

Twin System, with FL051 Fluoride reduction cartridge & CB951 0.5 micron carbon cartridge

The entry level TS500 comes with our FL051 fluoride reduction cartridge and a 0.5 micron carbon block for the reduction of chlorine, cysts, taste & odour.

System includes: Plumbing Kit, DFU130 long reach faucet, cartridges, pressure limiting valve, spanner wrench.

Very Fine
0.5 micron

Features

- Energy efficient
- No moving parts
- Easy to install
- Dual stage filtration
- Low maintenance

\$476.89
RRP Incl. GST

R090 | 95% Fluoride Removal

Reverse Osmosis under bench system, 90L/day

Utilising the latest in Reverse Osmosis technology, the R090 filters your water to 0.0005 micron and removes 98% of all dissolved impurities which are flushed out by the ultra-fine membranes.

System includes: Plumbing Kit, DFU130 long reach faucet, auto shut off valve, storage tank, membrane, cartridges, drain clamp, pressure limiting valve, spanner wrench.

Ultra Fine

Features

- Energy efficient
- 90L/day
- No bacteria buildup through integrated flushing
- Simple installation kit
- Low maintenance
- 0.0005 micron rating for 98% removal of impurities

\$929.90
RRP Incl. GST

R0130 | 95% Fluoride Removal

Reverse Osmosis under bench system, 130L/day

Utilising the latest in Reverse Osmosis technology, the R0130 filters your water to 0.0005 micron and removes 98% of all dissolved impurities which are flushed out by the ultra-fine membranes.

System includes: Plumbing Kit, DFU130 long reach faucet, auto shut off valve, storage tank, membrane, cartridges, drain clamp, pressure limiting valve, spanner wrench.

Ultra Fine

Features

- Energy efficient
- 130L/day
- No bacteria buildup through integrated flushing
- Simple installation kit

Puretec water care products are designed, manufactured and supported by Fluid Products the name you can trust for viable and proven water solutions. All pictures and information are supplied as a guide only. The complete range of Puretec products are developed, refined, made to meet and exceed stringent specifications for the worldwide market.

Important Note: Sales of products are subject to our Terms and Conditions which are available upon request. All specifications, prices and photos are a guide only and are subject to change without notice. Please ring to confirm details. Do not use products with microbiologically unsafe water without adequate disinfection. Where water pressure exceeds maximum pressure specifications, a pressure limiting valve must be fitted. Maximum flow depends on cartridges, vessel, pressure, impurities etc.
