910080	Billi Ultra 800	8	48	150	510	310	170
910160	Billi Ultra 1600	16	95	150	545	365	220

Water Supply

The Billi Ultra is designed for direct connection to cold water supply. Water must have a minimum pressure of 20kPa and a maximum of 1000kPa. If a filter has been installed, pressure should be limited to the filter specification.

Power Supply

A standard 10Amp power outlet is required within the area where the unit is to be installed. All Ultra models are supplied with a 2 meter flex cord and plug.

*Based on the initial number of cups of boiling water immediately available, drawn at one cup every 10 seconds. Consideration may be needed for usage patterns and draw-off methods. 1 cup = 170ml

Warranty

The Billi Ultra on wall boiling water system comes with an industry leading 3 year warranty, as testament to the superior design and reliability the product. Issues caused by mis-use and liming are excluded from warranty.

Options and accessories

- Filter: All units are available with the option of either a 5 micron or sub micron triple action filter.
- Tun Dish: Option of wall or counter top mounted.

Certifications

Every Billi drinking water system is manufactured under a certified quality control system. The Billi Ultra has been tested and complies with all required standards including: Watermark Licence Number W628; Tested to AS3498; AS/NZS 1044; AS/NZS3350-2-15 & AS/NZS4020.
