

# Supakwik water heaters pty Ltd

A range of reliable and extremely compact, energy efficient, fully automatic Boiling Water Units. The Supaboil now includes the all new features of FAULT ASSIST & SUPASILENT standby operation found *ONLY* in a Supakwik. The full range is available in Brushed Stainless Steel or White finish. All models can be supplied with filtration options.

Now with  
**'SUPASILENT'**  
Standby Mode

## Features

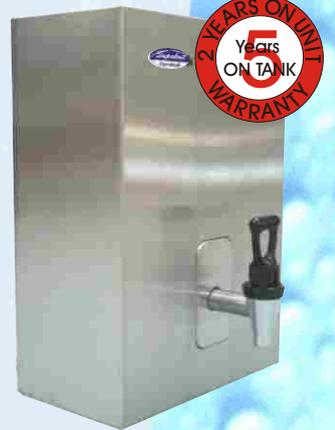

- 'SUPASILENT' Standby Operation
- Energy Efficient
- Fully Automatic
- Simple & Reliable
- Triple Safety Feature
- Element Power Management
- Comprehensive Warranty

You no longer need to put up with the noise of the water been periodically re - boiled - thanks to Supakwik's 'Supasilent' standby mode. This feature makes the units ideal for installation in hospitals, boardrooms, schools, libraries or any other area where the periodic noise of water being re - boiled is likely to be of a concern.

The Kwikboil range, has been specifically developed to offer the consumer all the benefits that a Boiling Water Unit has to offer while at an affordable price. The Kwikboil range of quality products represents genuine 'value for money'.

Whether you choose from the Supaboil or Kwikboil range, the SIMPLE DESIGN of all Supakwik products, made possible through the use of ADVANCED TECHNOLOGY, will ensure years of trouble free service.

All units are available with or without triple action filtration. When ordering filtered product simply add **F** (5 micron) or **S** (sub micron) behind the model number.

Replacement Filter Cartridges

Model	Description
F02F	Triple Action Five Micron
F02S	Triple Action Sub Micron

## Specifying Boiling Water Dispensers:

Simply establish the maximum number of cups of boiling water required at one time. Select the appropriate unit from the above table, matching the cups required from the DELIVERY column of the S SERIES BOILING WATER DISPENSER chart above. The 160 ml column is typically the volume of styrene cups, while the 200 ml column is that of a large coffee mug.
